Email: kuldeeppraj2002@gmail.com

Mobile: [+91 8235494985](tel:+918235494985)

SKILLS

Programming Languages: Python, TypeScript, JavaScript (ES6+), SQL

Framework & Libraries: React.js, Node.js, Next.js, Express.js, Flask, REST APIs

Backend & Database: MongoDB, Postgres, PrismaORM, Redis, ChromaDB

AI/ML & LLM Engineering: NumPy, Pandas, Matplotlib, TensorFlow, LangChain, LangGraph, RAG

Tools: Git, GitHub Actions, Postman, Azure

Soft Skills: Problem Solving, Teamwork, Adaptability, Curiosity

WORK EXPERIENCE

Bluestock.in | Full Stack Developer

Jan 2024 – July 2024

- Built scalable end-to-end features using ReactJS, including an interactive canvas tool for real-time document editing and collaboration.
- Optimized RESTful APIs and database queries, achieving 18% faster response times and 25% better query performance.

Outlier.ai | AI/ML Trainer

Oct 2024 – Jan 2025

- Contributed to AI model training by creating and evaluating prompts across coding and reasoning, improving model accuracy by 15% across 200+ evaluated prompts through targeted refinement.
- Reviewed AI-generated outputs to identify issues and enhance logical consistency, maintaining quality standards across 500+ reviewed outputs, improving consistency by 20%.

Mindrift | Software Developer

Nov2025 - Feb2026

- Built and deployed task-based web applications for startup clients, ensuring clean code, scalability, and on-time delivery.
- Collaborated with clients to gather requirements and delivered 10+ project features on schedule.
- Debugged and refactored code across multiple startup web apps, reducing bug resolution time by 30%.

PROJECTS

Vision IQ | [GitHub](#) | TensorFlow, Deep SORT, OpenCV, YOLO v11, Flask, ReactJS, PostgreSQL.

Aug 2025 – Sep 2025

- Developed real-time crowd detection solutions to detect, track, and count individuals in dense environments with 95% accuracy.
- Engineered a crowd detection system handling 200+ individuals simultaneously with 95% accuracy.
- Devised real-time density analysis to trigger automated alerts, reducing congestion-prone incidents by 40% in high-traffic areas.

Connect Now | [GitHub](#) | ReactJS, Flask, Socket.IO, WebRTC, TensorFlow, Media Pipe.

Oct 2025 – Dec 2025

- Architected a P2P live communication platform supporting 100+ users with ML-driven gesture recognition and sub-100ms latency.
- Integrated WebRTC and Socket.IO supporting 50+ concurrent users with 98% connection reliability and low-latency messaging.
- Reduced platform infrastructure costs by 20% through efficient resource management and optimized deployment pipelines.

Resume Builder | [GitHub](#) | ReactJS, NodeJS, Express JS, PostgreSQL.

Dec 2025 – Jan 2026

- Built an AI-powered resume screening tool that scores resume-to-job alignment with 85% precision.
- Integrated geolocation features displaying real-time hiring trends and location-specific salary benchmarks.
- Deployed on Azure with CI/CD, automated testing, and continuous monitoring, achieving 99.2% uptime.

TRAINING

Full-Stack Development | Apna College

Data Structures and Algorithms | Cipher Schools

ACHIEVEMENTS

- Smart India Hackathon Finalist (Top 2%), architecting region-specific crop advisory solution with yield-based profit estimation.
- Solved 450+ DSA problems on LeetCode with a contest rating of 1682, ranking in the top 14.72% globally.

EDUCATION

Lovely Professional University

B.Tech in Computer Science and Engineering in AI/ML

Punjab, India

Aug2022–May2026
